Hi Kim,

Yes, I will send you an email – early next week be OK?

I will not be attending AWMA, but CES' Andrea Geiger will be attending and presenting Krag Petterson's paper on the ETV testing of the Xact 625. She would be happy to talk with David Ogulei. However, she will only be there on Thursday. Can you send David's contact info?
John

Subject: Veolia comment responses

John,

First of all – Thank you so very much for your assistance in responding to the Veolia comments. We really appreciate your help. And if you don't mind, we have one more request.

We heard back from Region 5 this morning and they are wondering if it would be possible for you to send us an email summarizing your comments on the lead time for the multi-metals system so that we can add it to the record. It doesn't need to be a legal declaration or anything, just an email stating that the multi-metals CEMS is feasible for Veolia's operations, and can be installed within the timeframe we are talking about (~within 6 months).

Let me know if you have any questions.

Also, the lawyer in Region 5 – David Ogulei – is wondering if you are going to the AWMA meeting next week. If so, he will be there and would like to introduce himself.

Thanks again for your help with this.

Have a great weekend!

Kim
